

'THE ULTIMATE SUCKLER BREED'

# SALERS CATTLE SOCIETY OF THE UK

## 27<sup>th</sup> ANNUAL SHOW & SALE OF SALERS CATTLE

243 Commercial Breeding Females 243

8 Pedigree Females 8

20 Production Females 20

28 Pedigree Bulls 28

Kindly sponsored by

**Farmers  
Guardian**

Show on Friday 2<sup>nd</sup> November 2018 at 11.30am

Judge: Mr Glandon Lewis, Tremafon, Llanfair,  
Caereinion, Welshpool, Powys

Sale on Saturday 3<sup>rd</sup> November 2018 at 11am

Within Castle Douglas Auction Mart

Sale held under NBA Rules.

Wallets Marts Castle Douglas Limited  
New Market Street, Castle Douglas, DG7 1HY

Tel: 01556 502 381 | Fax: 01556 504 414

**KINDLY SPONSORED BY THE:  
FARMERS GUARDIAN**

**3<sup>rd</sup> NOVEMBER 2018**

**TWENTY SEVENTH ANNUAL COLLECTIVE SHOW  
AND SALE OF 299 SALERS CATTLE**

(held under the auspices of the Salers Cattle Society of  
the United Kingdom)

**COMPRISING**

**IN SALE ORDER:**

243 Commercial Breeding Females 243

8 Pedigree Females 8

20 Production Pedigree Females 20

28 Pedigree Bulls 28

**SHOW AND SALE ARRANGEMENTS**

**Show** – Friday 2<sup>nd</sup> November at 11.30am

**Commercial Show** – Pens of 4 and above judged before the  
sale.

**Parade of Bulls** – Saturday 3<sup>rd</sup> November at 10am

**Sale** – Saturday 3<sup>rd</sup> November at 11am

**INSPECTION**

A Veterinary and Society Inspection will take place on  
Thursday 1<sup>st</sup> November at 4pm

**NOTICE TO PURCHASERS**

We wish purchasers to know that all Pedigree adult cattle in this catalogue, at the sale have either been D.N.A tested or are clear by parentage for a genetic condition which rarely occurs in Salers Cattle, known as BETA-MANNOSIDOSIS

**AFTER FIRST PURCHASE PLEASE HAND THIS FORM  
TO THE AUCTIONEER**

NAME: .....

ADDRESS: .....

.....

.....

POSTCODE: .....

E-MAIL:.....

TEL NO: .....

MOBILE TEL NO:.....

HOLDING NUMBER: .....

## **NOTICE TO EXPOSERS**

All animals must be haltered and wear nose nips. The halter will become the property of the purchaser after the sale. It is sole responsibility of the vendor to ensure that his animals are haltered when they are delivered to the purchaser.

The Auctioneers do not hold themselves responsible for any errors they may find.

Prior to the numbering of the Animals it is essential the Exposers should ascertain that each Animal is in the correct pen. In order to make any mistakes known in printing or otherwise, ear marks must be checked prior to sale.

**IT IS RECOMMENDED THAT ALL HERDSMEN WEAR WHITE COATS.**

## **NOTICE TO PURCHASERS**

All strangers' cheques must be guaranteed by Bankers' Reference.

# SALERS CATTLE SOCIETY

## **NOTICE OF GRADE REGISTER**

A grade Register is in operation for grading Salers cross females up to purebred status. An 'A' after the Herd Book number and Ear number indicates that the female is 50% ( $\frac{1}{2}$ ) Salers. Subsequently a 'B' indicates that the female is 75% ( $\frac{3}{4}$ ) Salers. In accordance with the E.E.C regulations, the heifer calf born to a 75% ( $\frac{3}{4}$ ) Salers dam is considered purebred Salers at 87.5% ( $\frac{7}{8}$ ); she must also be inspected. Males achieve purebred status at the next cross 93.75% ( $\frac{15}{16}$ ). Only 'Full Blood' bulls may be used to grade up females. 'Full Blood' indicates pure French breeding. Calves, which have purebred, as opposed to full-blood breeding in their pedigree cannot reach full-blood status, but in every other respect they are treated in exactly the same manner.

## **PRE-SALE INSPECTION GUIDELINES**

### **Veterinary aspects:**

1. Overshot or undershot jaws or other abnormalities.
2. Defective genital organs.
3. Any other veterinary defects including warts, umbilical hernia and other hereditary conditions.

### **Breed aspects:**

1. Faulty, illegible or incorrect tattoo marks.
2. Any animal exhibiting temper or unruly behaviour.
3. Any animal not exhibiting accepted breed characteristics.
4. Any animal below a reasonable standard of physical condition.
5. Any animal regarded as below the required standard due to either inferior or defective conformation. This covers every point of conformation including the ability to stand and walk properly.
6. Any animal that is not showing reasonable growth of age.
7. Any animals that is unsound, or appears ill, or under the influence of sedation.

## **IMPORTANT NOTICE TO PURCHASERS**

1. This sale is held subject to recommended Conditions of Sale of the National Cattle Breeder's Association.
  2. This sale is held subject to the Special Terms and Conditions of Sale recommended for Sales of Pedigree Beef Cattle Breeder's Association. The preparation of these Terms and Conditions has proved a lengthy and costly process and in order to defray the legal and other costs involved, and to provide a continuing source of revenue to assist the Association in its vital work for pedigree cattle breeders the Council of The Association has decided that a special levy amounting to £1 per head/lot sold (plus VAT) shall be charged to each Purchaser. This levy will be imposed at the Sale and added to the Purchaser's account.

## **HEALTH STATUS - IMPORTANT**

### **JOHNES**

All cattle entered and presented at this sale must be from vendors who are: “members of the CHeCS Herd Scheme, and who comply with the current Salers Society Ruling for BVD FREE sales, and have established their JOHNES herd status and are actively monitoring and culling diseased animals from the herd”

**FAILURE TO COMPLY WILL RESULT IN ANIMALS BEING REJECTED FROM THE SALE.**

### **BVD**

All cattle entered for the sale MUST be from a BVD CHeCS accredited herd or have been individually tested BVD Antigen negative. All such animals MUST be fully BVD vaccinated at least two weeks prior to the sale. Females that are sold in-calf or running with the bull must be from a BVD accredited herd or individually tested BEFORE service, with the BVD status of the bull being determined BEFORE he serves any females that are to be sold.

**CATTLE NOT FULFILLING THIS CRITERIA WILL NOT BE ELIGIBLE FOR THIS SALE.**

**ALL DATES OF VACCINATIONS MUST BE GIVEN DIRECTLY TO THE MART OFFICE ON ARRIVAL AT THE MARKET.**

### **TB**

Vendors must notify the actioners prior to the sale if they are in a 1 year, 2 year or 4 year testing area. Cattle from 1 or 2 year testing area must have passed a TB Test within the previous 60 days of movement. The optimum dates for pre-movement TB Testing are between 6<sup>th</sup> September and 18<sup>th</sup> October 2018. Proof of testing has to be provided and dates announced at time of sale

## Explanation of Johnes Disease Risk Levels

- Level 1** This is directly equivalent to the previous CHeCS Accredited free status. Level 1 status is associated with the lowest risk source when buying in stock. Health plan required.
- Level 2** Herds with level 2 status have had one or two clear consecutive herd tests. Health plan required.
- Level 3** Herds with level 3 status have reactors identified at the annual herd test, but these are no more than 3% of the animals tested. Health plan required.
- Level 4** Herds with level 3 status have reactors identified at the annual herd test, and these amount to more than 3% of the animals tested. Health plan required.
- Level 5** Any herd that is not carrying out the required testing or does not have a suitable health plan in place automatically falls into this category. Level 5 status is considered to be the greatest risk source when buying in stock.

R. A Austin, Boreland of Girthon	14 Salers x Heifers (13-14 m.o).

## QR CODES

In this catalogue we have printed QR code for each animal, this will take you to the web page which will give you full information on pedigree, bar charts and photographs if available

### **Step 1**

Download and install a QR code app on your smartphone if you don't yet have one. Open your App Store, Market, Marketplace or App World application (for the iPhone, Android, Windows Mobile and BlackBerry platforms, respectively).

### **Step 2**

Search for "QR code reader," and then download and install a free app. The app should be named something to the effect of "QR Code Scanner" or "QR Scanner." There are paid versions of these kinds of apps, but the free ones work just as well.

### **Step 3**

Open the QR barcode app on your smartphone, and choose "scan from camera" or "scan QR code" from the main menu. A new window should open with a square in the middle of it.

### **Step 4**

Center the QR code in the middle of the square that's currently displayed by your QR barcode app. The app should automatically take a picture of the QR code for you when it has finished scanning the code. A new pop-up menu will appear, with the QR code information on it.

### **Step 5**

Click the link that was embedded in the QR code, this will direct you to the Society website.

# **UNDERSTANDING THE BREEDPLAN PERFORMANCE RECORDING INFORMATION IN THIS CATALOGUE**

Only Salers GROUP BREEDPLAN EBVs with Accuracy (Acc) can be validly compared between herds.

## **ESTIMATED BREEDING VALUES (EBVs)**

The EBV is the best estimate of an animal's genetic merit for that trait.

## **ACCURACY**

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives. Accuracy below 75% should be considered low.

## **CALVING EASE**

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

**DIR:** Direct calving ease indicates how this animal influences the birth of its progeny.

**DTRS:** Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

## **BIRTH AND FERTILITY**

**GL:** Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

**BWT:** Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

**SS:** Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

## **GROWTH**

**MILK:** 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

**200:** 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400:** 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600:** 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**MWT:** Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

## **CARCASE**

**CWT:** Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

**EMA:** Eye Muscle Area EBV (cm<sup>2</sup>) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

**FAT:** Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

**RBY%:** Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

**IMF%:** Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13<sup>th</sup> rib site in a 300kg carcase. Depending on market targets, larger more positive values are generally more favourable.

The Salers Cattle Society GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Salers Cattle Society nor the ABRI oversee or audit the collection of this data.

gd. Doyenne(1528224656)

gs. Ballygar Galway(IMP2011007)

**Dam - Cuil Fabby(MCC2012020)**

gd. Cuil Diane(MCC2010008)

Ran with Cuil London from 1<sup>st</sup> September 2018, guaranteed in calf.

# CLASS 3 – JUNIOR FEMALE

Rigel Pedigree

**5 Rigel Tilly**  
**Horned Red**

**Born 10/04/2017**

**(UK122086501843)**

gs. Herbin(IMP2011041)

**Sire - Lascaux(IMP2015008)**

gd. Bichette(1526485726)

gs. Rigel Verdun Poll(PYE2012027)

**Dam - Rigel Talitha Poll(PYE2015703)**

gd. Rigel Tallulah(PYE2004031)

By Lascaux (bred by Messrs Gane), purchased from the Bull Test Station where he was the stand out bull combining good looks, large pelvis area and excellent growth rates. His grandsire in the influential bull Variegeois. His dam is from one of our friendly female lines, with grand dam Tallulah being the oldest cow in the Rigel Herd. Both dam and grand dam again have tremendous heifer calves at foot this year. Tilly ran with Rigel Lotus Poll from 17th June, seen bulling 7th July and is scanned in calf to this service. Service sire Lotus is a Sagitaire Grandson so has excellent conformation.

## **WALLETS MARTS CASTLE DOUGLAS LIMITED**

**‘The Premier Marketing Centre for South West Scotland’**

Castle Douglas market has long been established as the premier auction centre for South West Scotland. Our weekly prime sheep sale is the largest in the region and prices have consistently been ahead of many rivals. Our fortnightly store cattle and OTM sales attract regular buyers from throughout the country resulting in a very competitive ringside of bidders. Annual breeding sales of sheep and pedigree cattle also attract great interest. All in all our services and facilities are unrivalled making Wallets the ultimate marketing choice.

Please feel free to contact us directly at any time to discuss your marketing requirements.
